

CAR ADAPTOR

INSTRUCTIONS

Thank you for purchasing the VTech® Car Adaptor. Be sure to read and follow all instructions carefully before using this product.

1. Plug the adaptor connector into your car's accessory socket.
2. Plug the other end into the DC power jack of your VTech® product.

NOTE: The car adaptor does not charge the batteries in your VTech® product. It simply acts as an alternative source of power.

CARE & MAINTENANCE

Important Safety Instructions

1. SAVE THESE INSTRUCTIONS - This manual contains important safety and operating instructions for the car adaptor.
2. Before using the car adaptor, read all instructions and cautionary markings on the adaptor.
3. Use of an attachment not recommended or sold by the car adaptor manufacturer may result in a risk of fire, electric shock, or injury to persons.
4. To reduce the risk of damage to the adaptor and cord, pull by the adaptor connector rather than by the cord when disconnecting the adaptor.
5. Make sure the cord is positioned so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.
6. Do not operate the car adaptor with a damaged cord. Replace it immediately.
7. Do not operate the car adaptor if it has received a sharp blow, been dropped, or otherwise damaged in any way.
8. To reduce the risk of electric shock, unplug the adaptor before attempting any maintenance or cleaning. Turning off the power will not reduce this risk.

WARNING: Do not expose the car adaptor to rain, moisture, or snow.
Adult Supervision Required.

Adaptor's technical specifications:
Input Voltage = 12V DC 0.4A
Output Voltage = 7.5V DC
Max Current = 400mA
Polarity : +⊖- -

TECHNICAL SUPPORT

If you have a problem that cannot be solved by using this manual, we encourage you to visit us online or contact our Consumer Services Department with any problems and/or suggestions that you might have. A support representative will be happy to assist you.

Before requesting support, please be ready to provide or include the information below:

- The name of your product or model number (the model number is typically located on the back or bottom of your product).
- The actual problem you are experiencing.
- The actions you took right before the problem started.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
