At the children's hospital, Dora, Pablo and Kate meet a little boy who's lost his toy monkey Mono. He's left him on the train! Dora and her friends promise to find Mono and bring him back. Join them on an exciting adventure as they search the train station for Mono. Along the way, look for the yellow stars and collect as many as you can!

CURRICULUM

Levels

InnoTab® cartridges have a tiered leveling system. During *The Search for Mono*, choose **Easy** or **Difficult** mode based on your child's age and ability level. For this cartridge, **Easy** Mode is for approximately **3- and 4-year-olds**, while **Difficult** Mode is for ages **5-6**. For **Free Play**, you can likewise select **Easy** and **Difficult** modes. Difficulty increases as your child progresses through each game.

Track Your Child's Learning Progress Online

Connect to **VTech's** online **Progress Log** for detailed information about the time your child spends playing this cartridge. We'll give you a breakdown of your child's performance and the skills taught in every game so you can quickly see where your child excels and where additional support is needed.

To view the Progress Log, go to: www.vtechkids.com/progresslog

The screenshot shows the 'Progress Log' interface for a child named Chris. At the top, it says 'Chris' and 'Last visited on May 4, 2015'. Below this is a dropdown menu to 'Choose another child'. A message states: 'Once Chris has played a few times, connect his device to the Internet to upload his scores, and we'll show you how he's doing.' The main area is titled 'Chris's learning achievements' and is divided into two sections: 'What has Chris played?' and a grid of achievement categories. The categories are: Language Development, Reading, Mathematics, Social Studies & Sciences, and Creative & Critical Thinking. Each category has sub-items for different grade levels: Toddler, Pre-Kindergarten, Kindergarten, Grade 1, and Grade 2 or Above.

Category	What has Chris played?
