## **ASSEMBLY INSTRUCTIONS**

With the **6-in-1 Tunnel of Fun™**, safety comes first. Adult assembly required. For your child's safety, do not let them play with this toy until it is fully assembled.

1. Attach the six **Long Support Poles (A)** to both ends of the three **Links (B)**. This will form three extended poles. Thread the three extended poles through the three openings at the beginning, middle and end of the **Crawling Tunnel** as indicated in the images to form three archways.

Tuck each pole end into the pocket at the end of each archway. Use a hard surface to push the pole further into the opening to make sure the pole end is covered by the pocket so the pole is not exposed. The poles are intended to fit snugly to create a sturdy crawling tunnel.

5. Attach the ends of the arch to the base of the **Support Stand** and to the top of the **Zebra Stand**. You will hear the arch click into place when connected properly.

6. Attach the **Zebra Stand** to the tunnel. Hook the two fabric loops on the left side of the **Crawling Tunnel** to the tabs on the zebra's back.

7. Attach the sensory toys to the activity links, then attach the links to the fabric loops on the arches.
